

Becoming a low carbon sustainable community: Resources to support Friends and meetings following Yearly Meeting Gathering 2011.

In early August, 1,500 Quakers came together in Canterbury for Yearly Meeting Gathering (YMG). The Yearly Meeting made a corporate commitment to become a low carbon sustainable community. The actions Friends have been asked to take include the practical, political and spiritual and are about both personal and corporate action, across the Yearly Meeting. Friends are asked if we can 'reconnect with our roots, to live a religious life and proclaim a message the world needs to hear'.

There many things individual Friends and meetings can do already to help build our low carbon sustainable community, and to help discern what this community might look like. You can now find a list of suggested actions at <http://www.quaker.org.uk/creating-just-and-sustainable-world>

Please contact Sunniva Taylor, the Quaker Peace & Social Witness Sustainability and Peace programme manager for more ideas and information on sunnivat@quaker.org.uk; or 020 7663 1047.
